

design meets art

Outdoor Catalogue
2017

Forty-five years give for a lot. During these past years we have remained faithful to our principles putting only the designs we like most into production, whether it be to equip a house, a hotel or a park.

We thought it made sense to join all our pieces and make an OUTDOOR CATALOGUE where you can find Salvador Dalí's lips sofa and Jaime Hayon's Monkey side table perfectly side by side.

Design meets art. Since 1972

The Poet

Alfredo Häberli

Alfredo Häberli is a great admirer of Oscar Tusquets' and Lluís Clotet's designs. After the Catalano and Perforano Benches, he paid homage to these and designed the Suizos Benches for BD in perforated painted steel. Of all of them, the Poet Bench is the one with the most sales.

Bench B

Konstantin Grcic

Bench B is a multipurpose bench for indoor and outdoor, measuring up to 4,8 m in a solid piece. The legs are in cast aluminium with extruded aluminium slats.

Catalano y Perforano

Lluís Clotet & Oscar Tusquets

The form of this bench is taken from Gaudí's Bench design for Parc Güell in Barcelona. Its ergonomic design, according to its authors is unimprovable. This piece has formed part of our catalogue since 1974.
